

Customs and Border Protection (CBP) Border Security Deployment Project (BSDP)

As America's frontline for homeland defense, U.S. Customs and Border Protection (CBP) is responsible for defending the border between the United States and Canada against the unauthorized entry of terrorists and terrorist weapons, illicit drugs, and illegal aliens.

In order to monitor and protect the nation against these unlawful admissions across the U.S. northern border, CBP engaged Sentrillion Corp. to install an intelligent video surveillance and security solution at 129 land Ports of Entry (LPOEs). Sentrillion's physical security system provides each LPOE with increased perimeter and internal security, enhanced situational awareness and personal safety for CBP officers, and a record of all port activities. Additionally, Sentrillion binds the frontline by unifying LPOEs to central command and control centers capable of monitoring port activities from remote locations. Sentrillion used a comprehensive system-of-systems approach that allowed maximum flexibility in the design of solutions for LPOE as each is unique in facility design, operational environment, and physical environmental factors.

Training Support Services

Sentrillion provides professional training support services. We use the Sharable Content Object Reference Model (SCORM) standard that was initiated by Executive Order to promote and encourage the development of online adult training systems for both government and non-government organizations. Our training packages are portable between Learning Content Management Systems (LCMS), each utilizing the same standard. Sentrillion's current training site (hosted by ez-lcms) is 3rd generation SCORM compliant (version 1.2).

The screenshot shows a web browser window titled 'EZLCMS - Windows Internet Explorer'. The address bar shows 'http://www.ezlcms.com/v2/st_del.html'. The page content includes a navigation menu with 'Home', 'My Training', 'Transcript', 'Catalog', 'Resources', 'Profile', and 'Help'. A 'My Current Status' section features a 3D pie chart with three segments: 'Completed, 2' (green), 'Started, 2' (blue), and 'Passed, 2' (red). Below the chart is an 'Organization Message' box with a welcome message and contact information for Richard Thomas, Training Operations Manager.
